

## Assignment 1 Marking Scheme

**Total Mark : 15 Marks**

### **Task 1: [10 Marks]**

For this task, please mark by checking that:

1. The student has created the Div tags for each section correctly. [1 marks]
2. Html tags are written correctly for the header, footer, main content, navigation of the HomePage, and the Contact Page form. [2 marks]
3. The student has used CSS correctly in a separate file, and connected it to both html pages in order to design the page as requested, and add the colours, pixels and padding as mentioned in the assignment text (the measurements don't have to be exactly correct, just relatively positioned to a certain extent). [3 marks]
4. The Contact Page JavaScript, should work correctly as the screenshot shows in the assignment. It should appear both the Name, and the text entered by the user. Students are permitted to use different ways and methods to show the same result. *If the student has almost got it right, but missed one or two small things to show the required result, we still give part of the mark, but the full mark is only given to the ones who completed the task exactly as requested.* [2 marks]
5. The About Link should be done using the Mailto ref tag. And the Home Link should link back to the HomePage [1 marks]
6. Students who have the final Margins and Padding (pixels) of the design as close as possible to the instructions on the sketches, and the screenshots, will get an additional mark. [1 marks]

### **Task 2 : [5 Marks]**

For this task, please mark by checking that:

7. The student has created the form section correctly using HTML. [1 marks]
8. The result Alert is showing correctly the number of items selected from the list. Students are permitted to use different ways and methods to show the same result. *If the student has almost got it right, but missed one or two small things to show the required result, we still give part of the mark, but the full mark is only given to the ones who completed the task exactly as requested.* [4 marks]
